

End of Life Notification

October 5, 2011 By Rick Ervin

Please note that as of October 30, 2011, Arizona Instrument can no longer guarantee production on the following lines of moisture analyzers.

- Computrac® MAX® 1000
- Computrac® MAX® 2000
- Computrac® MAX® 2000XL
- Computrac® MAX® 2000XL 4.36 Advantage

MAX® Series first introduced in June 1994

Some of the components within these units are no longer available, are out of production, or can no longer be manufactured to our specifications. *At this time*, we can provide repair and calibration service to these units. We cannot anticipate when shortages of key components will occur and we cannot guarantee that the required repair can be completed.

In place of these instrument models, we offer the **Computrac® MAX® 4000XL High Performance Moisture and Solids Analyzer**. We also offer the MAX® 4000 for customers using the MAX® 1000.

For more information about End of Service for some of the instruments listed above, see our **End of Service Notification**, effective May 1, 2015.

Thank you for your continued support. If we can help you with any questions, please contact us online, call us at (800) 528-7411 or email us at support@azic.com.
